

Automated Waveguide Measurement

InitializeAPT

Automatic Waveguide-Measurements

Fraunhofer Heinrich-Hertz-Institute

Department: Photonic Components

Research Group: Hybrid Integration and Sensing

Ramin Leon Neymeyer

Measurement status updates:
GUI started successfully.
Initializing devices...
Keithley initialized at address 26
EXFO CTP10 initialized at IP 192.168.254.10 and Port 5025
Lower Optical Switch initialized at IP 192.168.254.6
Upper Optical Switch initialized at IP 192.168.254.7
Routing set for switches: Lower - A,2, Upper - A,1
All devices initialized successfully.
